

BULGARIAN FACTORY S ANNOUNCED

Little News Yet Available and Situation is Still Obscure.

BOTH SIDES ARE CLAIMING VICTORY

Churchill, First Lord of Admiralty, Discusses Balkan Affairs.

TURK ATROCITIES HAVE BEEN REPORTED.
By Bulletin Leased Wire.
Adenau, Oct. 30.—The Turkish atrocities in the Balkans region are being reported. The villages were destroyed, the inhabitants killed, women and children being burned alive.

It is also officially reported that three-fourths of the Turkish wounded are Christians, which is taken to mean that the Christians were placed in the forefront of the battle. Five hundred Greeks captured in the Turkish army, who were taken to desert, have arrived here by way of Trebiz.

The march through the streets, singing war songs, and will be placed on the march.

London, Oct. 30.—The silence of Sofia concerning the great battle in Thrace has at last been broken by a brief dispatch announcing a Bulgarian victory and the capture of the town of Lale Burgas. This dispatch and equally laconic despatches from the Turkish commander contain the only news yet available and still leave the situation rather obscure.

The message from Sofia appears to refer to earlier events, while the despatches of Madsin Pasha, the Turkish minister of war, from which the one, a note from Adrianople in the direction of Sarajevo and the other in the direction of Varna, from which it must be inferred that the engagement was extending over a long front.

A Sofia despatch sent before the news from Lale Burgas was known, throws a new light on the disposition of the Turkish forces. It indicates that earlier reports of the taking of this town were premature. It reports that the Turkish first line of defense extended along the Ruzica river, with a second line from Lale Burgas to Lule Burgas.

Both Sides Claim Victory.
It is also claimed victory but there is reason to doubt that the Turkish taking line of defense has been broken. Up to the present the Bulgarians' despatches have been more reliable than the Turkish.

Madsin Pasha claims victory in the north.

CABINET SHUFFLE CEMENT DUTY IS NOW ARRANGED

Hon. Robt. Rogers Has Supervising Engineers Over Expenditure of \$400,000,000.

By Bulletin Leased Wire.
Ottawa, Oct. 30.—Hon. Louis Gougeon, minister of the interior and now in charge of the department, has today announced the results of his cabinet shuffle.

Mr. Gougeon today took over the supervision of the interior and now has custody of domain lands and of the administration of immigrants.

Hon. Robert Rogers took over the supervision of the department and has supervising engineers over the expenditure of forty million dollars which parliament has voted for dredging, harbours and public buildings.

If, as is anticipated, opposition is forthcoming in the House to the construction of the new canal, it is probable that a hand in the House and address meetings on behalf of the new canal.

It is also anticipated that the new canal will be a valuable reference to the main question which will be submitted to parliament including the navy.

Now that the cabinet readjustment has been arranged, preparations are being made for the opening of parliament three weeks hence. The main estimate will be ready at the time, also the bank act and the West Indian trade agreement, but the latter was primarily responsible for the fall sitting, it is very likely that the address is disposed of. Whether a redistribution bill will be brought down this session is still an open question.

SOUTHERN ALBERTA LAND DEAL

Biggest Transaction of Its Kind In South of Province.

MORE THAN QUARTER MILLION WAS PAID

Purchasers are Large American Capitalists Who Made Thorough Examination.

By Bulletin Leased Wire.
Edmonton, Oct. 30.—The biggest land ever made in developed land in Southern Alberta was closed today when the J. W. McLean ranch near Noble, Alberta, twenty miles north of Lethbridge, was sold for a little over a quarter of a million dollars.

The farm comprised 8,500 acres, more than one fourth of a township, and it was improved except 400 acres of virgin prairie and pasture.

The purchaser was J. A. Shirk, of Illinois, who will live in Lethbridge, leaving the 8,500 acres in the hands of his two sons, W. A. and J. B. Shirk.

The deal was made by the Heeb Land company of Lethbridge, and within a few months have sold 16,410 acres in Southern Alberta in Illinois clients.

The sale is another indication of the fact that the United States settlers of capital are creating the land. The Shirks own this property after carefully investigating the best agricultural districts of Alberta, Saskatchewan and Manitoba.

2,000 MINERS MAY GO ON STRIKE SOON
By Bulletin Leased Wire.
Calgary, Oct. 30.—That a strike of nine workers in the Crow's Nest district would result unless the operators and employees settled their differences over the yardage pay shortly was the opinion expressed by Glen Sinble, president of District 18, United Mine Workers of America.

The miners have made several ineffectual attempts to have the difficulties submitted to a board of arbitration. The Crow's Nest Pass Coal Company is the company involved, and a strike would directly affect 2,000 miners in the district.

Will Have No Plebiscite.
Toronto, Oct. 30.—The city council, by a vote of 14 to 3 today defeated a motion to suspend the rules to allow a plebiscite being taken next January on the question of Sunday closing and sledding in the city parks. The motion will be brought up Monday in the house.

Regina, Oct. 30.—Regard Bertrand, who shot and killed his wife of a few weeks with a shotgun June 13th last at their home in High River, was placed on trial for his wife's murder today.

Regard's crime was one of the most revolting in the police annals of Alberta. Following a domestic quarrel, Bertrand secured a double-barrelled shot gun and visited his home, slaying his wife in the yard.

Regard was arrested by the police and taken to the Regina penitentiary, where he was kept in the cell until his trial.

At the trial, the jury found Bertrand guilty of the murder of his wife and sentenced him to hang at the gallows.

TEMPERARY TAFT HEARS OF DEMISE

Pays a Tribute to the Worth Of His Lieutenant.

By Bulletin Leased Wire.
Utica, N. Y., Oct. 29.—After a long illness, President James McMillan died at his home in this city at 9:45 o'clock tonight of uremic poison, caused by Bright's disease, complicated by heart disease and arteriosclerosis.

He had been thinking since early morning that he was dying, and that death was a question of only a few hours.

There was slight relief shortly after seven o'clock, caused by an apparent improvement in the condition of the kidneys, but it did not prove real or lasting, and at last came only temporary hope.

At nine o'clock the temperature rose to 106. From that time the condition rapidly grew from bad to worse until the end. He was unconscious when he died.

ROOSEVELT GIVES GREAT RECEIPT

Madison Square Garden Crowded to Hear Progressive Candidate.

ENTHUSIASM IS LONG CONTINUED

A Plea Made for Supply in Behalf of Fight for People.

By Bulletin Leased Wire.
New York, Oct. 30.—A crowd that jammed Madison Square Garden from floor to roof and overflowed through three exits greeted the Progressive party tonight at the mass meeting marking the third anniversary of the attack upon him in the assassination on October 14th.

Governor Hiram W. Johnson, and Charles Macmillan, candidate for governor from New York, speaking to the thousands of people who had gathered in the hall, paved the way for the first demonstration for the former President.

A stuffed bull moose at the end of the hall, which was a sight to see, was a prominent part of the decoration.

Strius First Speaker.
The first of the candidates and a chorus of yells greeted the candidates as they appeared upon the platform, and the speaker of the Progressive party, Charles Macmillan, who had been elected chairman of the national committee, could scarce order to present Mr. Strauss as the first speaker.

"Our country has been peculiarly blessed," said Mr. Strauss, "in the fact that in every important epoch of its history it has had a leader of the highest calibre, and a leader who has been able to carry the nation through the most difficult and dangerous periods of its history."

He then turned to the speaker of the Progressive party, Charles Macmillan, and said: "You are the leader of the first two periods."

"We are now in the third epoch of our development, the struggle for reform, and the leader of this third epoch of our national life is Theodore Roosevelt. Through his leadership and his devotion to the cause of the people, he has been able to carry the nation through the most difficult and dangerous periods of its history."

BRODIE WILL GO TO OTTAWA.

James Brodie, Edmonton's gas engineer, is to go to Ottawa to confer with officials of the Geological Survey department. His trip is for the purpose of getting additional information on the northern gas flows and the possibility of getting additional information on the northern gas flows and the possibility of getting additional information on the northern gas flows.

"A municipally owned supply of natural gas is one which, without doubt, appeals largely to the ratepayers," says Mr. Brodie, "and the city of getting additional information on the northern gas flows and the possibility of getting additional information on the northern gas flows and the possibility of getting additional information on the northern gas flows."

"I thought that possibly the city might consider putting down a well from 3,000 to 3,500 feet below the surface of the earth, and if required, but little more expense would be needed than for a well of 100 feet. As there is plenty of cheap fuel and lots of water, he sees no reason why the city should not do this."
